

SAMPLE USER GUIDE: NEW EMPLOYEE ONBOARDING

Step-by-step internal documentation sample

Portfolio sample by Simran

1. Overview

This guide provides a simple onboarding workflow for a new employee joining an organization. It is designed as an internal reference for coordinators and new staff.

2. Before the Joining Date

- Confirm the employee's joining date, department, reporting manager, and role.
- Prepare required forms, access requests, workstation or equipment requirements, and introductory material.
- Inform relevant teams about the joining schedule.
- Prepare an onboarding checklist so that outstanding items can be tracked.

3. On the First Day

1. Welcome the employee and confirm basic joining information.
2. Introduce the employee to the reporting manager and relevant team members.
3. Explain office procedures, communication channels, attendance expectations, and basic policies.
4. Confirm that required equipment and access requests have been initiated.
5. Share role-related documents and the first-week schedule.

4. First Week Follow-up

- Check whether required systems and resources are available.
- Confirm that mandatory information or training has been completed.
- Collect questions or access issues and route them to the appropriate owner.
- Update the onboarding checklist and record pending actions.
- Schedule a follow-up with the employee or manager if required.

5. Completion Criteria

Onboarding is considered complete when required documentation, introductions, basic policy orientation, and access-related actions have been completed or formally handed over to the responsible team.
